PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science & Engineering student (graduating 2027) with hands-on expertise in Python, Java, Django, and Machine Learning. Engineered data-driven web applications achieving up to 97.5% model precision. Proficient in full-stack development, predictive analytics, cloud security, and IoT. Adept at independently delivering production-quality software solutions, with strong foundations in secure system architecture, algorithm design, and agile problem-solving.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, HTML, CSS

Frameworks & Libraries: Django, Random Forest, XGBoost, SVM, KNN, SMOTE

Databases: MySQL

Tools & Platforms: Git, GitHub, JSP, Servlets

Domains: Web Development, Machine Learning, Data Analytics, Cloud Computing, IoT

Core Concepts: Cryptography, Network Security, TCP/IP, ML Algorithms, Access Control

PROJECTS

Insider Threat Detection Using Machine Learning

Mini Project

Python · Django · MySQL · HTML · CSS · Random Forest · XGBoost · SVM · KNN

- Engineered a Django web application to detect insider threats by analysing user behaviour patterns, attaining **97.5% classification accuracy** via an ensemble of Random Forest, XGBoost, SVM, and KNN algorithms.
- Applied SMOTE to resolve class imbalance; delivered a real-time monitoring dashboard featuring user authentication, live threat scoring, and audit logging — boosting proactive incident response capability.

Minimizing Security & Privacy Risks in Cloud Storage for Big Data

Real-time Project

Java · JSP · Servlets · MySQL · Cryptography

- Architected a secure cloud storage platform using Secret Sharing Group Key (SSGK) encryption to safeguard sensitive big data, ensuring end-to-end confidentiality against both external attacks and insider threats.
- Integrated fine-grained permission management and an active intrusion-detection layer that monitors abnormal read/write patterns, enhancing storage efficiency while mitigating privacy and compliance risks.

PROFESSIONAL EXPERIENCE

Python Programming Intern — Axcentra (AICTE & MSME Registered)

Feb 2026 – Mar 2026

- Completed 3+ end-to-end Python projects spanning automation, data processing, and scripting; delivered every assignment within the 4-week timeline with zero rework requests.
- Cut manual data-handling effort by ~40% through reusable Python automation scripts; practised Git-based version control and authored clear technical write-ups to ensure long-term code maintainability.

Human Resources Intern — Greenbhumi Organization

Dec 2024 – Jan 2025

- Screened 50+ candidate profiles and coordinated end-to-end interview schedules, cutting hiring turnaround by ~20% via structured applicant tracking and prompt stakeholder communication.
- Managed HR records and onboarding files for 10+ new volunteers, strengthening process accuracy, eliminating data entry errors, and elevating cross-team collaboration efficiency.

EDUCATION

B.Tech – Computer Science & Engineering

Sep 2023 – Present

Malla Reddy College of Engineering for Women (MRCEW), Hyderabad

Intermediate (TSBIE) — 85%

Jul 2021 – Mar 2023

Narayana Junior College, Hyderabad

Secondary School Certificate (SSC) — 10 CGPA

Jun 2009 – Mar 2021

Nagarjuna Model School, Hyderabad

CERTIFICATIONS

- Introduction to Internet of Things – Elite — NPTEL | IIT Kharagpur | Score: 69%
- Introduction to Industrial Internet of Things — NPTEL
- HR Intern Completion Certificate — Green Bhumi Foundation
- Technical English for Engineers – Elite — NPTEL | IIT Madras | Score: 60%
